

General Adult Psychiatrist

Seeking a full time BC/BE General Adult Psychiatrist. One of Central Virginia's largest outpatient private practices is searching for a full time BC/BE General Adult Psychiatrist. Minimal qualifications include Doctorate of Medicine or Osteopathic Medicine with residency in psychiatry. **Candidates must be licensed or license eligible in Virginia and hold valid DEA Certification.**

The practice is engaged with several strategic partners in exploring and developing integrated services within primary care and medical specialty settings. Candidates with interest in behavioral health integration would find these opportunities of particular interest.

With four offices located in the suburbs of Richmond, Virginia, Commonwealth Counseling Associates, PC (CCA) offers excellent earning potential and broad based administrative support in a flexible, multidisciplinary private practice setting. Though available, the position requires no inpatient or Consultation/liaison duties or responsibilities.

One of the largest outpatient private practices in Central Virginia, CCA maintains a multidisciplinary professional staff of more than 45 clinical psychologists, psychiatrists, and nurse practitioners.

Please do not apply if you do not have the minimum qualifications listed above.

Required education:
Doctorate
